HOW TO PLAY

1. Write the teams on the Team A and Team B lines.
2. Players write a name in each square they take.
3. When all 100 are full, draw 0 to 9 at random for the top boxes, then again for the side.
4. After each quarter, find the last digit of each score. Where they meet is the winning square.

Example: Team A 17, Team B 10 = top 7, side 0.
